Happened

SICUR 2012

The Salón Internacional de La Seguridad (SICUR) was held from February 28 to March 02, in Madrid, and was visited by more 38 thousand Professionals. With 18 editions, the SICUR established itself as one of the most prominent professional meetings on the European calendar, able to unite all areas that constitute the integral security section. "The SICUR provided a collection of exbihitors with several solutions, all to attend the interests of professionals from all parts of Brazil. I say this because the differences we have between North and South, Lest and West in our country are similar to others European countries, so many solutions discussed in these meetings can also be used here. An important event!", said Igor Pipolo, director of Nucleo, which was present at the exhibition.

CNASI-RJ 2012

In the March 26, Edison Fontes, partner of the Nucleo, gave a lecture about "How to elaborate an Information Security Politics", in IT's 15th Auditing Congress Edition, Governance and Security Information (CNASI) of Rio de Janeiro. Fontes presented the difficulties that organizations face to develop information security regulations, indicated pratical solutions, considering the context of information security process and exposed a minimum standard for a politic security, based in academy search held during process of his master's dissertation. During the event, a time for autographs was dedicated for Fontes third book, "Practicing the Information Security", in special edition.

Visit to the CPA

Invited by the Security Community Council (CONSEG) in Morumbi, in the March 22th, Joao Jaouiche, Nucleo's associate consultant, was in Area Policing Command – CPA/M 5, where it was possible to know the routine of 190. Among the technological tools used in the command, the "Eagle Eye" is one of the most important, it is composed of sounds and images management system, with approximately 272 cameras all over the city, where a policeman monitors any abnormality situation where he can send a vehicle to the place being visualized to check if everything is allright. "It was enriching, to know and share experiences and technical knowledge in video surveillance systems", said Jaouiche.
Safety for Seniors

The lecture "The prevention of safety of the seniors and their reflections on the daily lives of citizen", ministered in March 29, by Igor Pipolo, gathered about 70 seniors in Jundiai's Reference Center of Seniors (CRIJU). Pipolo warned the people present about the significant increase of the incidence of attacks and organized gangs, the most common scams, like the "winning ticket", and instructed about the necessary care that seniors must have during the daily activities, like go shopping, go to the bank , answer phone calls, use of public tranportation, in streets, among others things. Cida Mazzola, Secretary of Social Assistance and Development (SEMADS) emphasized "lectures like this are relevant to the seniors public, which often need these preventives informations". *(Picture: Cida Mazzola and Igor Pipolo)*

Movie Suggestion

Divulgation Photo

Name: *"Paycheck"*	**Direction:** John Woo **Year:** 2003
Country: USA/Canada	Action, Fiction/119 min.

Commented Synopsis: Michael Jennings (Bem Affleck) is a brilliant engineer of computaters hired for top secrets projects. After each job, Jennings's recent memory is erased so that he can not remember any project information. After his last job, a 3 year contract, for a value of eight-digits, Jennings is surprised what he discovers at the end, and dismissed the payment. Jennings does not have anyone to resort, until he receives a mysterious envelope containing clues about his forgotten past. With the help of a beautiful scientist (Uma Thurman), that he once loved, but can not remember, Jennings runs to resolve the puzzle of his past, while a terrifying discovery awaits him in the future. "Great movie that addresses themes about information security: digital forensic investigation and the aggressive controls implementation on the employees of large organizations". *Marcela Floriano*
