Happened

Award Destach 2012

Igor Pipolo, Nucleo's director, was one of the people honored with the Highlight Award 2012 of the Private Security, given to him at April 03th, in Science Station, in Sao Paulo. Created by Cipa Group, the award is an annual tribute to professionals who have been highlighted from others in activities in the work safety and health, private security and prevention and firefighting sectors. In his fourth tribute, Igor Pipolo received the award with his little daughter Helena on his arms. "Thanks to Cipa Group and the people who vote and elected me due professional recognition. It is for my daughter and for the new generation that all of us work to make this country safer, and make our lives more protected", said Pipolo. (Picture: Pipolo with his daughter on his arms, receives the award from the Grupo Cipa's president, Roberto Sevieri).

VIII FESP

The businessmen discussed about security in World Cup during the VIII Business Forum of Private Security (FESP), event realized by State of Sao Paulo Private Security Companies Syndicate (Sesvesp), between April 11th and 13th, in Campos do Jordao/SP. During the three days of event, six technical lectures put in discussion the main issues in evidence of private security sector in Brazil, like the "Security of the Great Events" lecture, ministered by Igor Pipolo, that brought the preoccupations and providences regarding the planning, integration of forces and technical and individual preparation, both public and private so that Brazil can provide full conditions of the security during the World Cup 2014 games. "Risks always exist, the function of private security is minimize them and refrain the focus of problem", said Pipolo.

Visit to Santos Brazil

On April 12th, the Nucleo's consultants had the opportunity to visit the facilities of the Santos Brazil, reference in the operation of containers in South America, the Santos city unity being the biggest terminal in the whole country. The company offers complete solutions of integrated logistics for clients from different segments, with latest generation containers' positioning systems (GPS) and electronic monitoring that helps to ensure the security and quality in the services. "It is a reason of pride to see the strength of Brazil. Besides, the operation of the terminal is something unique and interesting, challenges the search of the solutions in protection and prevention", said Jaouiche. (Picture: Anderson Fagundes and Carolina Marchiori of the Santos Brasil, Marcio Martuscelli, Joao Jaouiche and Mauricio de Faria, Núcleo's consultants).

9º Infra Congress

The Infra Congress is the main meeting place of the whole facilities management community, the 9th Edition occurred between April 16th and 18th, in the Fecomercio Event Center, in Sao Paulo. In this year under the theme "Mastery to Innovate in Services", the congress is a additional tool to help the facilities professional to know new trends, skills and process in services and to perform better their attributions. Among event programming, one of the highlights was Igor Pipolo's lecture, "Security with Security", that reported strategically the issue of the risks, the costs of the protection operations and how to prepare to make the best decisions on hiring security, in right measure of needs, considering the technical, human and organizational controls.

Movie Suggestion

Name: "Conviction"
Country: USA

Direction: Tony Goldwyn
Drama, Suspense/107 min.

Year: 2010

Commented Synopsis: Betty Anne (Hilary Swank) and Kenny (Sam Rockwell) are very close brothers since their childhood. As adults, Kenny becomes chased by local Police because his bad reputation. The situation gets complicated when he is accused of committing the murder of a young women. After that, he was arrested. The case goes to court and, with various statements against him, Kenny is sentenced to life imprisonment. Betty Anne always believed in her brother's innocence and never got conformed with the sentence, seeking for ways to resort. No money to pay a renowned lawyer, she decides to go back to school to graduate in Law. The project takes years until to complete, so that she can take defense of her brother in an attempt resort the penalty. "Based on real events, this film is impressive. Mistakes of justice were able of destroying the man's life and totally reformulate the life of his sister for long eighteen years". **Marcela Floriano**
